Ilya Badanin

ilya.badaneen@gmail.com nov3o

Education

- **EPFL** — Lausanne, Switzerland
  Accepted as exchange student — *Feb. 2022 - Aug. 2022 (In future)*
- **Bauman Moscow State Technical University** — Moscow, Russia
  Bachelor's degree in Computer Science. ***GPA: 5.0/5.0****. Average position in rating: №2(out of 123)* — *Sep. 2018 - Present*

Experience

- **Distributed Computation** — Moscow, Russia
  Practice during Big Data Course
  - Writing Map-Reducer and launching on distributed cluster
  - Writing Hive queries and performing operations on big data
  - Database processing using PySpark

Projects

- **Peer-to-peer messenger** — Apr. 2020 - May 2020
  Team Project. Developed a command line interface using C++, which interacts with peer-to-peer network
- **Visual Novel** — Dec. 2017 - Feb.2018
  Created an engine for visual novel in web browser

Achievements

- **Yandex Cup finalist** — Sep. 2021
  Finalist in Yandex Cup competition in Algorthms section
- **YSDA Admission** — May 2021 - Aug. 2021
  Went to final stage in admission to Yandex School of Data Analysis, the best Data Science-related 2 year study program in Russia with steep admission concurrency. I was rejected, but rewarded with ticket for strong motivation, allowing skipping straight to last stage on the next admission
- **BEST Hack - II place [Hackathon]** — Apr. 2020
  Developed frontend for Help Desk web app in a team. Used TypeScript and React I learned in 2 months

Schools and Courses

- **CIS Intelligent Sensing Winter School** — Winter, 2021
  Winter school held by Queen Mary University of London
- **Artificial Intelligence Intensive Course** — Oct. 2021 - Nov. 2021
  Course on NLP, Neural Networks and Blockchain
- **Technopark@Mail.ru Main Course** — Feb. 2020 - May. 2020
  Was accepted to Technopark@Mail.ru main program, **acceptance rate 9%**
- **Technopark@Mail.ru Big Data Course** — Sep. 2019 - Dec. 2019
  Lectures on distributed computing using MapReduce, PySpark, Hive and Hadoop. Practice on distributed computing cluster using these technologies

Teaching and Management

- Assistance in taking labs on Data Analysis in Bauman MSTU
- Co-organizer of one the best free speaking clubs BlaBlaMoscow Language Exchange
- Created community of top 10% GPA students on my study program

Presentations and Speaking

- **YSDA admission presentation**, with which I was rewarded with a ticket for next year of admission for strong motivation *(Russian)*
- **NLP presentation on my cathedra's meetup**, where I was the youngest amongst all meetups' speakers, being the only 3rd BSc year speaker, while average speaker was 1st or 2nd MSc year student *(Russian)*

Skills

- **Programming Languages**: C++, Python, JavaScript, TypeScript, SQL, Lisp
- **Technologies**: React, Django
- **Markup**: LaTeX, markdown
- **Knowledge**: NLP, Machine Learning, Blockchain, Neural Networks
- **Languages**: English(Upper-Intermediate), French(Elementary), Russian(Native)
